

# Why use the rest when you can **have the best?**

H<sub>2</sub>ORANGE<sub>2</sub><sup>™</sup> is the ONLY CONCENTRATED  
hydrogen peroxide cleaner with:

- ✓ EPA Registration as a Sanitizer-Virucide-HBV
- ✓ One Cleaner, Two Dilutions
- ✓ Fast, Easy Training and Use
- ✓ Simple, Reliable Dispensing

The details are on the label.

## Hydrogen Peroxide Expertise

EnviroX invented hydrogen peroxide technology. Why trust anyone but the pioneers in hydrogen peroxide and environmentally preferred cleaning technology?

## Only 2 Dilutions

Two dilutions clean 95% of your facility.

## Patented Formula

H<sub>2</sub>Orange<sub>2</sub> has a unique formulation of hydrogen peroxide, orange oil and surfactants that cannot be copied or duplicated. It penetrates surfaces better than other hydrogen peroxide products, delivering maximum cleaning, oxidizing, and deodorizing results.

## What's Missing?

Even if a product is Green Seal certified, federal law prohibits the use of Green Seal or similar endorsements or environmental statements on EPA registered products.

Still the  
Only EPA  
Registered

## Virucide

Look carefully! Not all sanitizers are virucides. Only products that are EPA registered to kill viruses can be sold as a virucide.

## EPA Registered

Any product that kills bacteria or viruses is considered a pesticide under federal law, and requires registration with the U.S. EPA prior to distribution or sale. It is a violation of federal law to sell any product as an antimicrobial if it is not EPA registered.
