

Six Money-Saving Benefits of Using EnviroX

1 Massive Yields = More For Your Money

Case prices can be deceiving and packaging and dilution ratios can make comparisons difficult. We hyper-concentrate our products to get you more out of every case.

1 Case of H2Orange2 112	1 Case of Leading Competitor
2 x 1 Gallon	4 x 2 Liters
YIELD (IN-USE GALLONS)	YIELD (IN-USE GALLONS)
512	136
YIELD (QUARTS GLASS CLEANER)	YIELD (QUARTS GLASS CLEANER)
2048	1024
YIELD (QUARTS HEAVY DUTY)	YIELD (QUARTS HEAVY DUTY)
205	84

2 Speedier Training

The Association for Talent development² estimates that it currently costs an average of

\$165/Hour
to train a new employee

With EnviroX, you can use **ONE multi-purpose product for 95% of your cleaning needs**. Add one or two specialty products to reach 100%. **Reduce** the number of products you *must* train a new employee to safely use, **Reduce** the time it takes to train!

Train in Ten™
In fact, you can train staff on our products in as little as ten minutes with our variety of videos and multilingual graphic wall charts.

3 Reduce Workman's Comp Claims

Keep your team safe by using cleaning chemicals without harsh chemicals and that won't leave behind slippery residue—reducing the potential for slip and fall accidents. According to the NCCI, Workers Compensation Statistical Plan database³:

Average cost for all claim types:	Average cost for slip and fall:
\$44,179	\$51,047

4 Reduce SKUs to Save Time

Cleaning staff aren't the only ones who benefit from reduced SKUs. When you go from a bloated inventory of cleaning chemicals to just a few from EnviroX, Purchasing Managers save time, money and hassle when budgeting, restocking and reordering.

5 Save Space

Fewer products, compact dispensers, and concentrated solutions means EnviroX products take up a fraction of the space in the custodial closet.

6 Reduce Costs to Ship

Why waste money shipping products that are mostly water? EnviroX concentrates deliver our unique and superior cleaning chemicals in an ultra-powerful format.

BONUS Reduce your carbon footprint. Less plastic and cardboard used in packaging, more products shipped per fuel-consuming trip—all without harsh chemicals that can negatively impact the environment.
