Mineral Shock

Toilet Bowls & Heavy Stains / Inodoros & manchas pesados

Lower water in toilet bowl. Apply **Heavy Duty (Black)** to underside rim of the bowl. Use applicator to spread, then let sit for 5-10 minutes. Flush toilet to rinse.

For difficult stains, use toilet brush or pumice stone to scrub stain.

Bajo el agua en la taza del inodoro. Aplicar **Uso Heavy (Negro)** con formación de espuma cabezal de pulverización hasta el borde inferior de la taza. Utilice el aplicador para extender, luego deje reposar durante 5-10 minutos. Inodoro para enjuagar.

Para las manchas difíciles, utilice cepillo de baño o piedra pómez para mancha de matorral.

Use as needed for restorative cleaning on toilets, sinks and floors.

General Scale & Mineral Deposits / General Escala y Mineral Depósitos

Apply **Light Duty (Red)** to surface, let sit for a few minutes then scrub with a light-duty (non-scratching) abrasive pad, and rinse well with unheated tap water.

Aplicar **Uso Light (Rojo)** a la superficie, deje reposar unos minutos, luego talle con una esponja abrasiva de uso ligero (que no raye), luego enjuague bien con agua sin calentar.

Use every other week on toilets and sinks for hard water spot removal.
